

Paving blocks for the reshaping of the Saint-Remi park, Brussels, BELGIUM

Location: Molenbeek St-Jean (BE)

Paving & Slabs

Project details

The Saint-Remi park in Brussels underwent a transformation. Our paving blocks were chosen for the specific paving pattern. The redevelopment of the Saint-Remi park, located in a densely built area of Brussels, created an attractive public space for young and old. One of the most important adaptations is the special design paving with SCENIC stone paving blocks. The paving blocks are produced in four different colours and have the same Finerro finish. The Finerro finish exposes...
