

Precast Architectural concrete for Hardenvoort campus, Antwerp, BELGIUM

Location: Antwerpen (BE)

Buildings

Project details

Urbastyle delivered several precast architectural concrete elements for Hardenvoort campus for youth & children in Antwerp. The new Hardenvoort children's and youth campus in Antwerp consists of a nursery and primary school, and a secondary school and is a passive building. The construction site for this new building project is located in Antwerp North, on the edge of Park Spoor Noord. The surrounding area was designed by TV Thiers - Dujardin Tuinarchitecten and Buro II & Archi+I....
