

ORANGE World Head Quarters

Location: Issy-les-Moulineaux (FR)

Public Space

Project details

In the inner garden, round dome-shaped discs emerge from the ground. In the middle and on the sides, they have openings that serve as planting patches. Some of the discs are equipped with round U-shaped benches. The whole creates a pleasant working environment. On the outside of the building, there are large-format tiles, retaining walls and benches. Everything is done in a white concrete composition with fino (polished) finish....
