- ✓ Free standing

Measurements

- ✓ Ø 80 cm - 220 kg
- ✓ Ø 100 cm - 410 kg
- ✓ 100/80 cm - 290 kg

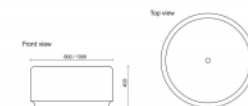

Planter snake These planters in architectural concrete in combination with each other create an undulating movement in your projects. Round planters are alternated with straight planters which are provided with a round cut-out at both ends in which the round planters fit. This makes it possible for a row of planters to go in all directions. Tip: Maybe combine different shades....

Colours and Finishings
