

Fasonado Large Size Cast Concrete Slabs

We have named our range of large-size cast concrete slabs Fasonado. Fascinating Fasonado. Size does matter. Casting in concrete makes it possible to create complex shapes and large-format slabs with a high degree of design flexibility. Choose your dimensions within 4 × 2 m, suitable for both large series and small quantities. In addition, we also offer large pressed concrete slabs - gdm.SCENIC stone. While slightly less flexible in terms of shaping, this highly automated production process enables us to manufacture larger quantities within shorter lead times, ensuring consistent quality and efficiency. Our range of finishes and colours is extensive, allowing architects and designers to tailor each project to its specific aesthetic and technical requirements. Please contact us!
