

Architectural concrete steps - Europapark station, Groningen, The Netherlands

Location: Groningen (NL)

Public Space

Project details

Urbastyle was responsible for the benches, the concrete stairs, the copings and the wall cladding of the stairwells of the Groningen Europapark station. The Groningen Europapark station is a suburban stop with buildings around the station squares. The appearance and quality had to serve as a driving force for the further area development of the Europapark district. The polished concrete steps, wall copings, benches and wall cladding match the quality of the look and...

> Europapark Station elected the most beautiful building of 2013 during the annual Day of Architecture in the Netherlands
