

Erbil International Airport roundabout

Location: Erbil (IQ)

Public Space

Project details

We were requested to produce an amazing project for the roundabout of Erbil International Airport in Iraqi Kurdistan. Our collaborator, also designer, Michael Cravatte, created a roundabout reminding the beautiful citadel of Erbil inhabited for 6000 years. This work needed to be cost effective, inviting and beautiful in the same time. The elements were created to be easily produced, transported and placed. The roundabout is made of 36 elements from 3 different moulds...
