

High quality concrete public benches, UWE Bristol Business School, UK

Location: Bristol (UK)

Public Space

Project details

On the square in front of the new Bristol business school on the campus of The University of West England high quality concrete Woodline benches are installed. The Bristol business school building is located in the heart of The University of West England's campus. The Frenchay square in front of the building is the focal point to connect the existing campus with the Student's Union Building and the new Faculty of Business and Law building. For the high quality concrete public benches,...
