

**URBASTYLE**  
CONCRETE STREET FURNITURE

BY

# INSPIRATIONS

URBASTYLE BY CONSENT

---

COLLECTION RANGE 2022

---

In this book, we give you an impression of projects realised with '**Urbastyle by Consent**' street furniture.

The 'Collection' range is specially designed for and with Urbastyle by designers from all over the world. Our designers and architects have created specific concrete street furniture for a better, more friendly, more accessible or greener environment.

On the last pages of this book you find an overview of all 'Collection' products.

All Urbastyle products for GCC are locally manufactured by Consent LLC in Dubai. This has nothing but advantages for you!

**Let the images inspire you!**

# MATERIALS

## HRAC

Urbastyle by Consent is the only manufacturer to use

**H**igh **R**esistance **A**rchiteconic **C**oncrete for its products.

The HRAC has been developed in-house after long research but the outcome is astonishing.

Through its special proprietary mix design, it is the concrete which is most suitable for the GCC climate: higher strength, lower absorption, longer durability and aesthetically the best!

HRAC is available in many colours and multiple finishes.

Check our website for all different options.

## UHPC

**U**ltra **H**igh **P**erformance **C**oncrete is great for the design of more resistant, slender and durable products.

UHPC incorporates structural synthetic macro fibers in mass and has micrograde aggregate, allowing the production of very resistant and lightweight elements, incompatible with the nature of traditional concrete.

UHPC can present non uniform cloudy effects of colour and light cracks, which are physiological aspects of this material

UHPC is available in grey, white and black in smooth or polished finish.

CONCRETE STREET FURNITURE

BY

PROVIDING INNOVATIVE SOLUTIONS

= ADDED VALUE FOR YOU!

Street furniture created by designers worldwide.

Expanding range of products in many shapes and finishings.

Manufactured in UAE: nothing but advantages!

- shorter lead times
- better prices (less transport costs!)
- no customs / import taxes
- direct contact with manufacturer
- flexibility to customize designs for your project
- knowledge of GCC market and requirements
- production following European know-how
- concrete samples on simple request quickly available
- only manufacturer with HRAC
